

The most important view of a restaurant chair is the back.  
The back is what you see most of the time.

**niils**

**niils**

- Suitable for different surroundings thanks to many color combinations
- Same size upholstery for seat and back support simplifies the production process
- Wood is a sustainable material – a green choice!
- The rounded back support prevents things and people from getting caught in the chair

**Materials**

- Wood (solid and veneer): White stained ash, Ebony stained ash
- Leather (different colors). Alternatively cotton or wool
